LIÉGE 1930

INTERNATIONAL EXHIBITION

Sciences - Applied Sciences - Industry

Head Office : 4, PLACE ST-LAMBERT, 4, LIÉGE (Belgium)

⊙ ⊙ ⊙

MARCH 1928.

The International Exhibition of Sciences and Industry will be opened at Liége, in the month of April, 1930, and will remain open for **6 months.**

SPECIAL OBJECT

The prime object of the exhibition is to show what Sciences and Applied Sciences owe to research workers.

The aim of the promotors is to bring attention to the progress achieved in education, laboratories and technical equipment ; to the development of museums and the facilities afforded for experimental work ; to the achievements of scientific investigations and their application to industry and methods of production.

The industrial exhibition will also be divided in order to emphasise the latest progresses made in the numerous fields of industrial research, output and efficiency.

PATRONAGE : The Exhibition is placed under the Official Patronage of the Government, it has the actual support of the Province of Liége, of the town of Liége and of most of the townships of the Province.

His Majesty the King has invested Monsieur Alfred Laboulle, former Minister of Public Works, with the office of General Commissioner of the Government for the Liége Exhibition.

Foreign Governments have received at the beginning of 1927, notification of the organisation of the Liége International Exhibition. They have been invited to take part in it and to be officially represented by authorised Commissioners, charged with representing their nations and watching over their interests.

Considerable participation is assured, approval has been received from the great nations.

PRINCIPAL INSTRUCTIONS OF THE GENERAL REGULATION :

The Exhibition will cover an area of about 148 acres.

RENT OF SPACE

⊙ ⊙ ⊙

(Art. 24). - Stands in the Belgian Section and in the Sections of countries officially represented shall be let at prices and subject to clauses and conditions to be laid down by an agreement between the Executive Committee and the Commissioner-General of each of these sections.

(Art. 25). - The cost of rent for stands, other than those in the Official Sections, including general decoration and handling of goods is laid down as follows :

I. HALLS AND PALACES OF INDUSTRY AND SCIENCE

100 Belgas (500 Belgian Francs) per square metre of surface or per linear metre frontage, if the depth is less than one metre, with a minimum of 100 Belgas (500 Belgian Francs) per stand.

Additional charges of from 20 to 80 Belgas (or from 100 Belgian Francs to 400 Belgian Francs) per square metre or per linear metre frontage will be made according to the palace and the situation.

Certains sums may be returned, by agreements privately made with the Executive Committee, to exhibitors of machinery and apparatus in action.

Reductions may also be granted for extensive surfaces.

II. GARDENS AND SHEDS

35 Belgas (175 Belgian Francs) per square metre of surface or per linear metre frontage, if the depth is less than one metre, with a minimum of 35 Belgas (175 Belgian Francs) per stand.

If sheds are put up, the above rent will be raised by 5 Belgas (25 Belgian Francs). Reductions will be granted for large emplacements.

⊙ ⊙ ⊙

General Catalogue : (Art. 10). The Executive Committee shall compile an official, methodical and complete catalogue of the exhibits from all countries. This catalogue shall give the name of exhibitors, the nature of the industry and the place of manufacture (Workshop, Works, Mine, Laboratory, School, etc).

International Jury of Awards : (Art. 30). An International Jury of Awards will be appointed, the members of which will be nominated by the Governments of their respective countries; this Jury will be organised and controlled by the Belgian Government's Commissioner-General.

Applications for Admission : (Art. 22). The conditions under which applications for admission must be made are printed on special *forms* which will be supplied by the Executive Committee and must be adressed in duplicate, duly filled in, signed and postage paid, at the latest on the 1 st July 1929 as regards industrial material, and at latest on the 1 st January 1930 as regards all other goods.

Date of installation of Exhibits : (Art. 28). The setting out of works or goods and the carrying out of all installation work in connection with these shall be finished before the 15th April 1930.

The setting up of machinery and apparatus, which cannot be put in their places or constructed without temporarily making use of the space reserved to other exhibitors, shall be completed by the 15th October 1929 or earlier, if the Executive Committee consider that necessary.

All foundation work for machinery shall be completed at latest on the 1st October 1929.

Regulations to be issued later : (Art. 40). Regulations to be issued later on shall determine the terms on which goods shall be sent, received, handled, set out and returned, the manner in which shall be organised supervision, customs duties and entries to the Exhibition, the termes under which shall be granted rights of sale, as well as the formation and operation of the International Jury of Awards.

Special regulations shall determine the conditions for the setting up and working of machinery, mechanical and electrical apparatus and plant.

Facilities of Communication : Liége possesses an Aerodrome and is conveniently situated in the centre of a net-work of international railways traversing Europe from one end to the other. An office for Post, Telephone and Telegraph will be established in the grounds of the Exhibition.

Facilities of Transport : (Art. 17). The Exhibition will be connected with the railways of the National Society of Railways and with those of the Company of North-Belgium in such a manner that the products will be able to be brought by train directly into the grounds of the Exhibition.

The National Society of Railways, the National Society of local road railways and the Company or North Belgium will grant a free return fur all exhibits.

Facility of Custom-house : (Art. 39). The Exhibition is constituted as an actual bonded warehouse. Foreign goods for the Exhibition may be imported provisionally free of import duty, procided they are re-exported with due regard to the formalities laid down by the Belgian Government.

Protection of Inventions : (Art. 11). All necessary steps shall be taken by the Government to protect, in Belgium, patentable inventions, industrial designs or models, as well as commercial or industrial trade-marks to be seen at the Exhibition.

Protective Measures for Exhibits : (Art. 36). Measures will be taken with a view to protecting installations and exhibits against fire, damage, dilapidation and theft.

Handling of Exhibits : (Art. 18). The Exhibition Co-operative Company undertakes the handling of goods free of charge for all isolated exhibitors within the grounds of the Exhibition, in the case of parcels of normal dimensions not exceeding 1500 kiligrammes in weight, and which shall have been delivered at latest on the 10 th April 1930.

Rights of Sales : (Art. 37). Articles of everyday sale as well as those manufactured or made up on the spot may be sold and delivered at once, on payment of a duty to be agreed upon mutually and subject to special authority delivered in writing by the Executive Committee.

A Commercial Office : A Commercial Office, an Inquiry Office and a Documentation Office will be constructed in such a manner as to aid the visitors and the exhibitors and facilitate communication between consumers and producers.

Side Exhibitions, Special Exhibition. — Congresses and Conferences : (Art. 43). Additional Exhibitions, temporary exhibitions, congresses and conferences, readings, galas, singing and music competitions, concerts, etc... will be organised during the Exhibition.

International Congresses : (Art. 44). The Executive Committee intends to call International Congresses. It will consider and give its patronage to, should the occasion arise, all plans the carrying through of which might appear to the Committee likely to increase the attractiveness and the éclat of the Exhibition.

⊡ ⊡ ⊡

Official Programme

SUMMARY :

A. — Sciences :

Group 1 : Mathematics.
Group 2 : Physics.
Group 3 : Chemistry.
Group 4 : Mineralogy.
Group 5 : Industrial Sciences proper.
Group 6 : Medical Sciences.
Group 7 : Industrial Tuition.
Group 8 : Scientific Tuition.

B. — Industries :

Group 9 : Mining and Quarrying.
Group 10 : Metallurgy.
Group 11 : Mechanics.
Group 12 : Arms.
Group 13 : Electricity.
Group 14.: Chemical, Pottery, Glass and Sugar Industries.
Group 15 : Textile industries.

C. — Railways and Transport :

Group 16 : Cycles and Motorcycles. Railways.

D. — Civil Engineering :

Group 17 : Roads and concretes.

E. — Common to Sciences and Industries :

Group 18 : Arrangement of workshops. Labor organisation. Press and Documentation.

F. — Congresses and Conferences :

Congresses, Conferences, Industrial and scientific Demonstration relating to all the items of the programme.
